It was nice to get a win as a team today. We played well and kept focused in our middle match. The scores were quite indicative of all the matches, so I was pleased with the way we handled each opponent to earn a solid 6-1 team win coming back from the 1-6 loss to Germantown. The match reflects our progress and improvement as a team. We are able to perform well against players and teams that we have an advantage over and we stay focused to play at the level we are capable of. We're working to raise our level to do a bit better than just compete, but rather to pull out some very close, tough matches where we need to maximize our potential and ability in order to seek out a quality win.
