## HARTFORD UNION HIGH SCHOOL DISTRICT PROJECT PROGRESS REPORT

*March 2025 Update*

### WHAT'S NEW?

Bid Package #1, which includes critical infrastructure and security upgrades, was officially issued on March 7th. This package covers significant enhancements such as LED relighting for large sections of the school, renovations to multiple restrooms, improvements to door and camera security systems, and the construction of a new parking lot off Monroe Street. The construction manager, CG Schmidt, has distributed the bid documents, and proposals will be accepted on April 1st.

### NEXT STEPS

With the bid deadline approaching, the evaluation of proposals will be the next priority, ensuring that selected contractors meet the school's standards for quality and efficiency. Once contractors are chosen, a more detailed construction schedule will be developed in preparation for work beginning in summer 2025. Meanwhile, planning for future referendum projects will continue, with updates to be provided as designs are finalized and timelines take shape.
